Spring Boot Microservices

Beginner to Guru

Assignment - Write Tests for Cancel Order

Assignment - Write Tests for Cancel Order

- Implement Cancel Order on Beer Order Manager

  - Take Order Id, send cancel event

- Write Integration Tests for each of the cancel order transitions

  - VALIDATION_PENDING -> CANCELLED

    - Make validation listener not respond to prevent status change

  - Skip VALIDATED -> CANCELLED - state changes too quick

Assignment - Write Tests for Cancel Order

- ALLOCATION_PENDING -> CANCELLED

    - Make allocation listener not respond to prevent status change

- ALLOCATED -> CANCELLED

    - Verify JMS Message is sent
